Profile

Detail-oriented and adaptable Computer Science student with a strong foundation in software development, systems programming, and web technologies. Experienced in building full-stack web applications using React.js, Node.js, and ASP.NET ⬈ Core MVC. Demonstrated ability to design role-based access systems, integrate modern frontends, and manage relational as well as NoSQL databases. Enthusiastic about building practical tools, solving real-world problems, and exploring backend systems and data flow. Hands-on experience in embedded systems and basic networking further strengthens a well-rounded technical profile.
